

Critique Preparation Worksheet

Please fill out one per judge as you listen to their evaluation

Critique is a valuable way for instructors and judges to discuss the color guard's program and performance. While the judge's evaluation provides the most meaningful and detailed information, critique dialog allows staff to ask for clarification and to provide input to help the judge better evaluate the program. Please use this worksheet to prepare for an efficient and effective critique session. This is for you to keep and use as you plan our future rehearsals.
